DD/S Suspense re Issuance of Regulation on Travel Expenses  
 for Educational Purposes

REF : Memorandum For Director of Central Intelligence From  
 Deputy Director (Support) dated 29 June 1956.

1. On the transmittal from the DD/S, attached to reference, this Office was requested to prepare necessary regulatory issuances to implement the reference. Reference covered two new authorities, the first relating to payments of charges for storage of personal effects of personnel assigned to non-emergency areas, and the second relating to payment of dependents' travel expenses to or from the United States for educational purposes.

2. TAS has transmitted as of today's date to the ADD/S proposed regulatory issuances relating to payments for storage of personal effects of personnel assigned to non-emergency areas.

3. On 1 May 1956 the Office of Personnel transmitted to RCS proposed Headquarters and [REDACTED] which are deemed adequate to meet the requirements for regulatory issuances under the second authorization of reference. In a telephone conversation today with the Acting Chief, Regulations Control Staff, the writer was advised that he will recommend to the ADD/S today that the proposed regulations [REDACTED] be coordinated within DD/S components with only the Office of the Comptroller, Office of Security, and General Counsel.

25X1A

4. In view of the foregoing, it is recommended that you request DD/S that responsibility for developing regulatory issuances covering the payment of travel expenses for educational purposes be charged to the Office of Personnel instead of this Office.
